

## CHINESE RAFFLE RULES

- 1. To participate in the Chinese Raffle, you must purchase tickets (10 tickets for \$10). Tickets are available at the Registration Table when you enter the party. There will also be people selling tickets throughout the night.*
- 2. The Chinese Raffle prizes will be set up on tables in the main party room, with a separate ticket basket for each.*
- 3. Write your name on the back of your tickets, and drop them into the baskets of the auction items you're interested in winning. You can put all your tickets in one basket if you choose.*
- 4. The Chinese Raffle tickets (which resemble \$100 bills), can also be used as casino money. Try your luck in the casino area, and increase your chance to win Chinese Raffle prizes! You can use \$100 auction tickets/casino money won in the casino to enter the Chinese Raffle.*
- 5. If you choose to gamble, DO NOT write your name on the back of your tickets until you are through gambling, or until the casino closes at 11:00pm. At that time, ticket holders can write their name on their tickets, and place them in their Chinese Raffle basket of choice.*
- 6. The Chinese Raffle ends promptly at 11:30.*
- 7. Shortly after 11:30, one ticket will be drawn from each basket to determine the winner of each prize. Winner need not be present to win.*
